Course Description:

Patients have traditionally sought treatment when concerned with the way their teeth look, function or feel. Over the past few decades, esthetics increasingly motivates patients to seek treatment. Practitioners must learn to satisfy their patients' increasing esthetic demands at the same time they assimilate an escalating amount of information regarding diagnostics, materials and techniques. With the right approach, highly esthetic outcomes can be achieved at the same time treatment outcomes are engineered for long term success.

Course Objectives

- Review the role of esthetic considerations when assembling a comprehensive diagnosis.
- Learn to incorporate esthetic, functional, structural and periodontal considerations into the treatment plan.
- Understand smile analysis and its importance in guiding treatment decisions.
- Learn treatment approaches that manage or reduce functional considerations and improve long term prognosis
- Learn the pros and cons of various types of porcelains (lithium disilicate, leucite reinforced, feldspathic, zirconia)
- Learn the esthetic and morphologic factors that influence ideal gingival architecture and how to predictably modify

About the speaker:

Betsy Bakeman, DDS, FAACD

Dr. Bakeman is an Accredited Fellow of the American Academy of Cosmetic Dentistry and is the President-Elect for the AACD. She also serves as both an Accreditation and a Fellowship examiner for the AACD. She was the recipient of the AACD's 2013 Award for Excellence in Cosmetic Dentistry Education.

Dr. Bakeman served as Chairman of Accreditation for the AACD and Chairman of the American Board of Cosmetic Dentistry. She maintains a full-time private practice in Grand Rapids, Michigan and teaches as an Adjunct Faculty member at the Kois Center in Seattle, Washington. She is a member of the American Academy of Restorative Dentistry and the American Academy of Esthetic Dentistry. She has served as Section Editor for Compendium and the Journal of Cosmetic Dentistry and serves on several editorial boards. She publishes and lectures on the topics of comprehensive dentistry and periodontal plastic surgery in the esthetic zone.

**Refund Policy: Refunds will be given 30 days prior to the course minus a \$75.00 processing fee.
Course attendance earns 8 AGD CE lecture credit hours**

The New England Academy of Cosmetic Dentistry is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from January 1, 2016 to December 31, 2019. Provider ID #2081
