## Course Description: ***Mastering Functional Esthetics***

The magic to restorative and esthetic success lies in the timeless protocols of the “Concepts of Complete Dentistry”. At this advanced level of treatment planning, esthetics can only be a mirror of the relative health of the system. Synergizing our understanding of this sophisticated system with the advancements in modern materials and technology enables us to predictably create treatment options that emulate nature.

In this program, through the use of clinical cases and video, we will discuss the protocols of the Functional Esthetic Matrix through the modulation of the Smile Design Matrix related to Global, Macro and Micro Esthetics. The mastery of this Dental Blue Print requires an effective treatment planning protocol that is a quantitative, progressive and dynamic; to insure comfortable, durable and beautiful results.

### ***Learning Objectives:***

- *Understand the critical relationship between function and esthetics*
- *Designing exquisite provisional prototypes and understanding their importance in creating predictable ceramic restorations*
- *Understanding the key elements in lab communication*
- *Comparing the myriad of dental ceramics available today and understanding the properties inherent to each that will help us choose the best materials to insure our success*
- *Understanding proper preparation designs and when to use a veneer and when not to*
- *Understanding the elements of Smile Design relative to Global, Macro and Micro criteria*
- *Understanding the critical steps in delivering beautiful esthetic restorations*

### **About the speaker:**

## **Scott Finlay, DDS, FAGD, FAACD**

Dr. Finlay is an Accredited Fellow of the American Academy of Cosmetic Dentistry. He is an Accreditation Examiner and has served on the American Board of Cosmetic Dentistry. He is a Fellow of the Academy of General Dentistry, and practices in Maryland.

Dr. Finlay is well published including the revision of the AACD Criteria Manual. He is a Senior Faculty Member of the Dawson Academy, who lectures across the US as well as in Japan and the UK teaching how to implement procedures to provide quality, beautiful and durable esthetic dental rehabilitation.

**Refund Policy: Refunds will be given 30 days prior to the course minus a \$75.00 processing fee.  
Course attendance earns 8 AGD CE lecture credit hours**

The New England Academy of Cosmetic Dentistry is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from January 1, 2020 to December 31, 2022. Provider ID #208142.
